

## All for One Steeb - eInvoice Integration Application Now Available for Purchase on SAP® App Center

*By integrating with SAP® Business ByDesign®, All for One Steeb - eInvoice Integration from All for One Steeb GmbH delivers creation of xInvoices (XRechnungen) to customers*

**Graz, Austria — 11 August 2020** — All for One Steeb GmbH today announced that its [All for One Steeb - eInvoice Integration](#) application is now available for purchase on [SAP® App Center](#), the digital marketplace for SAP partner offerings. The application integrates with the SAP® Business ByDesign® and delivers xInvoices (XRechnungen) to customers.

“With All for One Steeb – eInvoice Integration, xInvoices (xRechnungen) can now be generated and sent automatically, delivering simplicity and convenience to customers,” said Lukas Portugal, Cloud Consultant, All for One Steeb.

Though the classic PDF format has become the standard for electronic invoices, according to German and European authorities, this format will no longer be an accepted electronic invoice because the document cannot be automatically processed in electronic form. As of July 11, 2020, there is an obligation in Germany for businesses to instead send electronic invoices to public authorities. Paper or pure PDF invoices will no longer be accepted. With the All for One Steeb – eInvoice Integration app for SAP Business ByDesign, businesses can easily create and send xInvoices from their usual process without any additional effort.

An overview of the functionality provided by All for One Steeb – eInvoice Integration is as follows:

- Automatic creation of xInvoices
- Validation step checks that all mandatory data are available to generate xInvoices
- Translation of the XML structure into xInvoices
- Conversion and dispatch of xInvoice format is carried out without additional effort
- Time saving through automated data transfer
